Welcome to the 121st Kentucky State Fair, which brings together families from across our commonwealth and beyond to celebrate our culture, our values and our amazing farmers.

This year's theme, "All Things Kentucky, All in One Place," celebrates our New Kentucky Home and the amazing things that make it so special. From the farm families who represent the 69,100 farms spanning 12.4 million acres across our commonwealth to the great-tasting food, music, horse shows and fun we've all come to love, there is no better State Fair in the country than right here in Kentucky.

This 11-day showcase draws tens of thousands of families and visitors to the fairgrounds, contributing to our thriving economy and tourism industry which just celebrated two record-breaking years. In 2023, Kentucky tourism generated \$13.8 billion in economic impact, supported 95,222 jobs and welcomed 79.3 million travelers – and we fully expect 2024 to beat those numbers.

And just as important is the support this event provides to our agriculture industry, which is essential to our state and heritage. Together, we can celebrate our fellow Kentuckians who provide the food we eat, keep us healthy and help our economy thrive.

Whether you are from a few miles away or a few hours away, exploring the Kentucky State Fair is the perfect way to enjoy our New Kentucky Home. I encourage you to experience all the Fair has to offer, from livestock exhibits to rides to one-of-a-kind food, and have a lot of fun.

Sincerely,

A handwritten signature in blue ink that reads "Andy Beshear".

A MESSAGE FROM **KENTUCKY AGRICULTURE COMMISSIONER** **JONATHAN SHELL**

Welcome to the 121st Kentucky State Fair!

I am excited to, once again, join you at the State Fair. Along with you, I want to experience the sights, the sounds, and the smells that make one of the best times of the year. The State Fair is the perfect showcase of Kentucky's agricultural spirit. Rural and urban residents come together in this unique atmosphere to celebrate everything Kentucky has to offer.

Farming is a way of life for many in Kentucky, but its impact is vital for every resident. It's why I'm dedicated to ensuring a bright future for Kentucky agriculture.

While Kentucky residents create the magic of the state fair, the fair's unique nature is recognized by others, as well. It's consistently ranked among the top state fairs each year. It received the No. 1 slot for state fairs in Vacations Made Easy's lifestyle and travel blog. It also grabbed one of the top spots in the Wide Open Country's ranking for state fairs across the country. From popular music concerts to gourmet chef demonstrations to, of course, the incredible horse shows and the parade of livestock champions, hundreds of thousands enjoy the state fair each year.

As a member of the State Fair Board, I can assure you lots of behind-the-scenes actions take place to make the Kentucky State Fair a showcase for our state. Planned renovations, being furnished by a \$200 million appropriation for the Kentucky State Fair by our General Assembly, will create an even better experience for fairgoers in the coming years.

Changes on a smaller scale were also a part of last year's AgLand, which brings together more than an acre of agriculture exhibits in the South Wing highlighting Kentucky's farm and field heritage, including the future of farming and agribusiness. Those changes, which included more interactive and immersive exhibits,

will return this year after earning a first-place award from the International Association of Fairs and Exposition. AgLand is also where you'll find Kentucky 4-H, Kentucky FFA, and other ag exhibits reaching a broad and diverse audience.

At the Kentucky State Fair, you will see why we're Kentucky Proud of our agriculture industry. Kentucky's leading youth livestock exhibitors compete for the highest honors of the livestock show season. Kentucky's commodity groups serve delicious meals at the Great Kentucky Cookout Tent. The agricultural displays highlight the best our Kentucky farmers have to offer.

Creating an inclusive experience for all our residents will also be highlighted this year as we, once again, will offer our Sunshine Class. Now in its fourth year, the event offers an opportunity for special needs youth to get hands-on experience with the agriculture industry by showing livestock in a show ring. It's worth the price of admission just to see the smiles on their faces. You don't want to miss it.

As always, your Kentucky Department of Agriculture will be on the job at the fair. Our employees meet the public and talk about the ways agriculture affects everyday lives. We help manage the livestock shows and the agricultural exhibits. We also help livestock producers and exhibitors protect their investments in their animals.

We want you to leave the fair with fond memories that will last a lifetime. If I, or any of my staff, can be of service to you, please don't hesitate to ask. Again, welcome, and enjoy the Kentucky State Fair.

Sincerely,

Jonathan Shell

4. Every animal or article in competition will be under the supervision of the Superintendent of the department in which it is entered, but the Kentucky State Fair Board and Management will not be responsible for any loss or damage that may occur.
5. Exhibits that have been mistakenly entered in a class may be transferred to proper classes prior to being judged at the discretion of the Superintendent. If such classes already have been judged, they will not be reopened.
6. All items entered in competition will be displayed at the discretion of the State Fair Management. The Kentucky State Fair Board, in its sole discretion, may decline the acceptance of any entry that it deems not suitable for display or exhibit at the Kentucky State Fair.
7. The Superintendent of each department shall check entries listed under each class in the entry book against each exhibit presented. At the time of judging, the Superintendent shall mark the entry book to show which animals or articles were passed on by the judge.
8. Judging books shall be signed in ink. Entries that were not shown must be so designated. Superintendents are responsible for these requirements.

Placing of Entries

9. The Kentucky Exposition Center will be open to receive livestock and articles for exhibition at dates and times specified in departmental rules. NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior, as well as, open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the National Code of Show Ring Ethics, fairs and livestock shows may have rules and regulations that they impose on the local, county, state, provincial, and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values shall be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the Kentucky State Fair. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors shall present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer, and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event that culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state, and provincial statutes, regulations, and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations, and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved, and all procedures of said collection and preservation, transfer to the laboratory, and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.
5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) that could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices is not acceptable and is prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect, and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant, whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of

competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.

11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action that contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

6. Security is provided 24/7; however, the Management will not be responsible for any loss or damage to any article. Every effort is made for due care, protection, and diligence in the handling of all entries received in the Fine Art department. Large sculpture, glass work, and delicate china may be handled and installed by the exhibitor during check-in on the floor area with the supervision of the Superintendent or Assistant Superintendent during receiving days. After installation, items may need to be moved at the discretion of the Superintendent. To identify art if the tag becomes detached, you shall place your name and/or address on the back side of art, out of view of the judges. Tags are closed during judging only. Titles on tags, printed near your name, are encouraged.
7. Art patrons and collectors are encouraged to inquire and purchase the exhibited work directly from you, the artist. The Fair will not act as a selling agent. Do not display a "For Sale" sign on work; however, you may print the selling price on your tag. A sale negotiated between the exhibitor and the patron after the closing of the Fair is best, scheduled by you on return day. To avoid inquiries on a purchase, clearly print "NFS" on the hang tag to indicate your intent for a "Not for Sale" entry. The art staff will be happy to assist you.
8. The Fine Art department welcomes volunteers to be floor runners on receiving days. Students over the age of 12 and adults familiar with handling art are welcome. Inquiries forwarded to the Superintendent.
9. All art "ready to hang" means art shall be wired (with appropriate strength wire) to hang OR art is required to be mounted to a base for three dimensional items. Textiles may require an insert (rod, bar, wire or hooks)
10. The Louisville Artisans Guild will award a one-year membership to the First Place winners in all adult divisions.

GENERAL RULES

1. Please read the Plants and Flowers section in its entirety for correct divisions and classes as changes have been made. It is the responsibility of exhibitors to accurately register their entries prior to check-in. If an entry is misidentified or otherwise described as something it is not, it may still be displayed but will not be judged. For Kentucky State Fair purposes, all plants and flowers are considered horticultural because they are cultivated in gardens, orchards, or indoors as potted houseplants.
2. All horticultural exhibits will be accepted from 7:30 to 11:30 AM on the day before the Fair begins, Wednesday, August 13. Judging will start promptly at 1:00 PM.
3. Rose Show entries will be accepted from 7:30 AM to 10:30 AM on Saturday, August 16. Judging will start promptly at 11:30 AM.
4. Only Plants and Flowers workers are responsible for placing entries, excluding entries for the Rose Show. Entry tags are to be presented in numerical order to assist the check-in process. Exhibitors shall keep their entry tag stubs to retrieve entries at the end of each show or provide a valid driver's license. Stubs are given as receipts and cannot be used for any other purpose.
5. Exhibits will be accepted as indicated at the beginning of each show. Entries will close promptly at the specified times. Late entries will not be judged but may be put on display.
6. Exhibitors are limited to one entry in each class unless otherwise specified.
7. Exhibitors whose entries have been accepted are required to present an exhibitor ticket or pay Fair admission. For information about exhibitor tickets, please refer to General Rules.
8. For judging to begin promptly, all exhibitors are required to leave the exhibition floor as soon as their entries are placed and shall remain off the floor until judging is completed. Exhibitors are not allowed re-entry to the exhibition floor for any reason, including grooming, placement of trays, or rearranging exhibits.
9. For transparency and efficiency, a strict chain of custody shall be maintained by Plants & Flowers personnel. Exhibitors shall not place their own exhibits, change tag information, switch tags or make entries into any log. Should such transgressions occur, compromised exhibits shall be excluded.
10. Clerks shall not change information on tags, even at the request of exhibitors, as they lack the authority to make

GENERAL EXHIBITS - EAST HALL

such changes. However, if a tag is missing, the Plants and Flowers Superintendent and/or the Assistant Plants and Flowers Superintendent may handwrite a replacement for a clerk to initial and log in.

11. **LIABILITY:** The Kentucky State Fair will not be responsible for loss or damage to exhibits or personal property but will exercise utmost care for the protection of all exhibits.
12. **JUDGING:** will be done by trained Horticultural Judges and/or accredited Society Judges. The signature of at least one trained judge is required to be written on every Blue Ribbon exhibit card.
13. **HORTICULTURAL JUDGING SCALE:** judges assess all entries by the following parameters:
 - Conformance to type or class
 - Correct identification
 - Form, color, condition and grooming
 - Lack of blemishes
 - Disease and Pest Free
 - Maturity and size
 - Grooming and staging
 - Distinctiveness or exceptional qualities
14. **Major Awards:**
 - A. **Best of Show:** This will be awarded to one of the Blue Ribbon winners. Ribbons won for Best of Show, Best of Section or Best of Division do not count toward the Sweepstakes and are not to be entered on any entry form. An award and rosette will be presented to the exhibit judged the finest specimen in the Horticultural classes. The recipient is to be selected by unanimous vote of the judges.
 - B. **Horticultural Excellence:** This will be awarded to one of the Blue Ribbon winners. It is awarded to the exhibit that best exemplifies the qualities of the Section it represents, second only to the Best in Show, but may be awarded along with the Best in Show if no other exhibit is deemed worthy. The recipient is to be selected by majority vote of the judges.
 - C. **Sweepstakes:** This is awarded to the winner of the most Blue Ribbons. In case of a tie, Red Ribbons will be counted, followed by White Ribbons if necessary. All entries are eligible.
15. An exhibitor winning First Place prize in any class is barred from exhibiting the same article in that class at any subsequent Kentucky State Fair.
16. Ribbons and awards are not presented or publicly discussed until official tallies are complete.

Exhibitor Responsibilities

1. All submissions are required to have been the exhibitor's possession for at least three months. This includes exhibits

of multiple plantings within the same pot.

2. All exhibits shall be properly identified with names written at the top of entry tags. Please note: during judging, named varieties are given precedence over specimens that are clearly of the same variety but erroneously named or not named at all. The terms 'Dwarf' and 'Miniature' indicate varieties; 'stunted' or 'standard' do not. Plants & Flowers volunteers are under no obligation to make corrections to tags but shall do so if directed by the Superintendent or Assistant Superintendent. If a specimen cannot be identified after reasonable attempts, it will be shown but not judged.
3. No live plants may be dyed or artificially colored in any fashion.
4. No shining agents or other sprays on foliage will be permitted.
5. No infected plants will be allowed or accepted. After submission, should an entry be found to be infested, it will be quarantined without being judged. When possible, the exhibitor will be notified and asked to retrieve it.
6. Plants should be planted in sterile potting soil, not yard dirt.
7. Specimens should not be treated with anything other than soap and water.
8. Watering requirements should be submitted in writing. If no watering is to be given, this information should be provided in writing as well.
9. Grooming tables and carts will be provided at loading bay E9 when entries are accepted. Hand trucks will also be provided. Exhibitors are requested to minimize the time spent grooming and assembling before they submit their exhibits. All shall finish when the submission period ends.

Please be courteous to others when using the grooming tables by processing no more than 5 exhibits at a time. Volunteers have the authority to move exhibits to make room available.
10. No exhibit or portion of an exhibit shall be removed from the show at any time. This will result in the loss of the premium associated with the winning exhibit. However, exhibitors are required to reclaim their exhibits when the Fair ends. Unclaimed exhibits and awards will be disposed of.
11. Pots and containers shall be provided by the exhibitor, including dishes and plates needed to prevent damage to tables and pedestals. Small specimens should be shown in small, clear, colorless glass bottles or vases. Large specimens may be exhibited in any suitable plain or colorless receptacle. Names and addresses must be attached to the bottom of these containers unless returns are not desired.
12. Unless otherwise instructed, all cut specimens will be disposed of by the end of the fair.

13. Do not decorate pots with foil, paper, ribbons, trinkets or the like. However, Styrofoam or wooden stems/wedges may be used to keep cut specimens in upright positions.
 14. When submitting cut flowers, ensure no leaves or blooms are below water level. Remove floating debris.
 15. When choosing categories, be mindful of size and weight requirements. Unless otherwise specified, pot size for most exhibits cannot exceed 24 inches in height and width and overall weight cannot exceed 25 pounds. The specimen itself cannot exceed 3 feet in height or 2 feet in width. Plant height is measured upwards from the soil line which must be ½ to 1 inch below the pot's rim.
 16. Oversized specimens may measure 4 feet high and wide with containers up to 2 feet high and 3 feet across.
- The overall weight cannot exceed 50 pounds. For these submissions, the exhibitor may be asked to help put them in place.
 17. Tropical plants are defined here as requiring USDA Zone 8 growing conditions and above. (Kentucky's climate ranges from USDA Zone 6 through 7A.)
 18. SWEEPSTAKES all classes 1 through 68: Rosette & Award
 19. HORTICULTURAL EXCELLENCE in classes 1 through 68: Rosette & Award
 20. BEST OF SHOW: to best of all entries, classes 1 through 68: Rosette & Award

GENERAL RULES

All exhibitors: Please read the Textiles section carefully to avoid disqualification. There are changes in the rules and new classes.

- Exhibitors are limited to one entry in each class.
- Unless otherwise specified, any item entered in Textiles must be:
 - Handmade;
 - The work of the person in whose name it is entered;
 - Finished within the last three (3) years.
 --Exhibitors shall certify the above by signing the space provided on the entry form.
- Items in this department shall be made primarily of textiles. Only items entered in a class in the Textiles Department will be accepted and displayed.
- Many quilts are now made by two people: one person may piece the quilt and another person may quilt the quilt. Two-person or group quilts can only be entered in those classes that specify two or more people. Group quilts or those made by two people are not permitted in any other class. Also, we accept items in this department with the understanding that the work has been done by the entrant(s), who agree(s) to be governed by Fair rules and regulations.
- ALL ITEMS SUBMITTED FOR DISPLAY ARE REQUIRED TO REMAIN FOR THE FULL RUN OF THE FAIR. EXHIBITORS WILL NOT BE ALLOWED TO REMOVE ARTICLES FROM THIS DEPARTMENT UNTIL MONDAY, AUGUST 25 AT 9:00 A.M. ANY ARTICLE NOT CLAIMED BY 7:00 P.M. ON MONDAY, AUGUST 25, WILL BE DISPOSED OF BY THE KENTUCKY STATE FAIR.
- All exhibits should be clean. Judges may penalize items that are not clean. Any article that is not up to standards in the class in which it is exhibited may be disqualified by the judge. If an item is disqualified in a class, it is not eligible for any other award and may not be displayed.
- An exhibitor winning first prize in a class one year is barred from exhibiting only that item in the Textile Department at any subsequent Kentucky State Fair. The exhibitor may enter that class again if in future years with a different item.
- If there are multiple articles in any exhibit (such as textiles crafts, ornaments, wearing apparel, etc.), they should be fastened together securely.
- The Textile Department will not act as a selling agency. No articles may be shown in this Department with a "For Sale" tag. Any sales must be between the owner and the prospective purchaser.
- No pictures will be accepted unless they are properly framed and fixed for hanging with screw eyes and wire. No saw-tooth hangers or easel back frames will be allowed. Items that are disqualified may not be displayed.
- Perimeter measurement refers to the measurement of all sides of an object. The perimeter is obtained by measuring the length of each side of an object and

GENERAL EXHIBITS - EAST HALL

- adding all the lengths together. On three-dimensional items, the measurement shall also include the depth as well as the height and length.
12. Security is provided 24/7. Management will not be responsible for any loss or damage to any article. Every effort is made for due care, protection, and diligence in the handling of all entries received in the Textile Department.
13. Only Textile Department official workers will be permitted in the area during judging. The Textile Department would welcome your help on judging day if you do not have anything entered in the Textile Department. If you do have an entry, please help on another day during the Fair.
14. Where there is only one entry in a class, the first prize, if merited, will be awarded. Where there is competition, all prizes may be awarded so far as there are worthy entries. Where articles are not worthy of first prize, judges may, at their discretion, award a prize or prizes of such grade as the article deserves. Any article not up to Standards in the class in which it is exhibited may be disqualified by the judge.

QUILTS

DIVISION 4301

A Quilt is made of two layers of cloth with a layer of soft filling between them, then stitched together in lines or patterns through all the layers.

All quilts are required to have been completed within the last three years and be clean and in good condition.

Quilts are required to have a sleeve (hanging sleeve) on the top back of the quilt large enough to accommodate a 4" rod. Both the top and bottom of the sleeve are required to be sewn on. Do not use pins. An instructional video may be found on the American Quilter's Society YouTube channel: <https://www.youtube.com/watch?v=bF81VRK4ilw>

Quilts without the proper hanging sleeve (no tabs) will not be judged or displayed. Place exhibitors tag at the bottom right corner of the piece.

If necessary, the quilt bottom will be pinned up to prevent it from touching the floor. Management will not be responsible for any articles exhibited, but due care and diligence will be given in the handling of articles.

Please read the classes carefully and enter the quilt in the correct class for size, intended use, and techniques employed. A quilt may be disqualified if it is entered into the incorrect class.

The perimeter of a quilt is the measurement around all four sides.

GENERAL RULES

- Unless otherwise noted, each entry of bees, honey, or beeswax exhibited shall be produced in the exhibitor's apiary and in the 2024-2025 production year.
- ALL ENTRIES ARE REQUIRED TO BE RECEIVED AND EXHIBIT SET UP BY 6:00 PM (ET) MONDAY, AUGUST 11. Judging will be done on Tuesday, August 12. No exhibitor will be allowed in the department during judging.
- Entries not picked up will be discarded. Food items will be discarded prior to entry pickup if they begin to mold or draw pests. All unpreserved food items will be discarded at the close of the fair, due to food safety concerns.
- An exhibitor is limited to one entry in each class. In the case of a company, bee club/association or partnership, the exhibits should be entered in the name of the company, bee club/association or partnership. Members from the same family may enter (i.e., brothers and sisters, spouses), but each member needs to enter individually. In the case of a youth, the individual or youth club/association may enter into the Youth Division if the individual(s) is under 18 as of August 1, 2025.
- Each exhibitor will be asked to sign a certified statement indicating the exhibitor is a bona fide producer of the entry and the honey being exhibited. All honey entered in any class, with the exception of gift baskets and honey cookery, shall be produced by the entrant. Beeswax and cookery entries shall be the product of the exhibitor, but he/she is not required to produce the honey or beeswax used in the gift basket categories. Honey products in displays (Classes 25-26, 35) shall be the product of the entrant, but the raw beeswax may be produced by someone else. Any exhibitor found guilty of violating this rule will forfeit all premiums.
- All extracted honey entries shall be submitted in 1-lb. glass "Classic" or "Queen Line" jars. Beekeepers entering honey in the creamed and chunk honey categories should use 1-lb round comb jars. Safety-seal lids should not be used on any jar. Labels are not allowed on jars, except for jars of honey in displays or gift baskets (Class 25 and 59). Jars or containers of honey with labels (except in displays and gift baskets) will be disqualified.
- Frames of honey shall be in a bee-proof container with a removable top for checking moisture. One frame per container. Frames from any allowable hive type are permitted: Langstroth (any size), Top Bar, Cathedral, Warre, Slovenian. Plastic foundations or non-standard frames (such as those from FlowHives) are not allowed.
- Damaged or otherwise hazardous exhibits will be discarded at the discretion of the Superintendent.
- No person may handle any exhibit without the permission of the Superintendent.
- The Superintendent reserves the right to reject any entry that, in their opinion, is unworthy of the contest.
- The decision of the Superintendent and Show Management in charge shall be final.
- Each exhibitor shall determine honey color classification but can request to change classes upon arrival at the State Fair. Jack's Scale will be available to the exhibitor for color placement in classes 5-14.
- The KSBA President or a County Extension Agent may deliver individual entries on behalf of an association, as long as all entry tags are included. However, the Kentucky State Fair is not responsible for entries that do not arrive by the time posted in the Premium and General Rules book.

Entries that do not meet the drop-off deadline will not be accepted and will not be judged, no exceptions.

14. Exhibitors entering in the Black Jar class are responsible for submitting one jar of extracted liquid honey in a glass 1-lb "Classic" or "Queen Line". The outside of the jar is to be painted completely black and bearing no individual labels. Jars shall be at least ¼ full.
15. In all classes, adult and youth, items submitted shall not have any reference to the exhibitor. This includes the exhibitor's name, company name, and/or logo, unique color of ink pen, etc. Any items so identified will be disqualified and will be on display only after judging is completed and if space is available. All containers shall be unlabeled.
16. Entries in the Beekeeping photo classes shall have been taken by the exhibitor in the 2025 year. Any photo of honey bees, comb, queens, drones, apiaries, swarms, etc. will be accepted, however photos shall not include people or any identifying information (street signs, handwriting, license plates, etc.). Photos that do not have honey bee related content will not be judged or displayed. Photos will not be accepted if framed and/or if glass is present.
17. Entries in the Beekeeping Fiber Arts and Mixed Media classes shall be an original piece by the exhibitor. Any exhibitor found guilty of violating this rule will forfeit all premiums. Pieces previously submitted (2024 or prior) in other divisions are permitted in the 2025 competition.
18. The Show Management will use diligence to ensure the safety of articles after their arrival and placement, but in no case will management be responsible for any loss or damage that may occur.

19. Winners of sweepstakes awards (or their immediate family, including spouses, children, or siblings) are eligible for the same award every other year. To determine sweepstakes winners, the following point system will be used: blue ribbon - 7 points; red ribbon - 6 points; white ribbon - 5 points.
20. Counting the number of blue ribbons will break point ties. The exhibitor with the most blue ribbons is determined the winner. If blue ribbons are equal, then red ribbons will be counted. If red ribbons are equal, then white ribbons will be counted. If white ribbons are equal, then pink ribbons will be counted.
21. Entries into the Certified Honey Class shall have documentation to prove their active status in the program. This documentation will be filed with the Superintendent but will not be shared with judges. Superintendent reserves the right to check active membership of the entrant with the Certified Honey Program Director. Exhibitors are responsible for submitting one jar of extracted liquid honey in a glass 1-lb "Classic" or "Queen Line".

Any exhibits grown from a saved seed may be identified by a name of the exhibitor's choosing or "seeding." This adds to the attractiveness and educational value of exhibits. Entries not classed correctly or that do not identify variety/variety on the back of the entry tag will receive no premiums.

NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the National Code of Show Ring Ethics, fairs and livestock shows may have rules and regulations that they impose on the local, county, state, provincial, and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values shall be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the Kentucky State Fair. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors shall present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer, and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event that culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state, and provincial statutes, regulations, and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations, and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved, and all procedures of said collection and preservation, transfer to the laboratory, and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) that could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices is not acceptable and is prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect, and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant, whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

POULTRY, PIGEONS, & RABBITS

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action that contravene these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

3. Entries are to be made in the name of the 4-H participant who completed the work on the project exhibited. **A Social Security or Federal Tax ID number is required for each 4-H exhibitor.**
4. All 4-H Cloverville entries (except small animals and livestock) will be registered electronically by the August 5 deadline. Instructions and web address will be provided later by the 4-H extension leaders. There WILL NOT be any walk-inregistration received after August 5, except for county fairs held after the August 5 deadline. Any fair held before the August 5 deadline is subject to the August 5 deadline. Substitutions will not be allowed.

GENERAL RULES

1. To be eligible to compete at the Kentucky State Fair, all 4-H/FFA market goats and wether dams are required to compete in one of the pre-fair districts shows sponsored by the Kentucky Department of Agriculture, Shows and Fairs Division. Qualifying shows are subject to Kentucky Department of Agriculture, 4-H and FFA guidelines. Novice exhibitors of market animals are not required to attend a qualifying show.
2. All 4-H/FFA market goats and wether dams that will participate in market livestock shows in Kentucky (i.e., County Fair, District Livestock shows, etc.) are required to be tagged with Kentucky Uniform Identification Program (K.U.I.P.) tags. K.U. I. P. tag numbers shall appear on the State Fair entry form. All market goats and wether dams that will be tagged with K.U.I.P. tags will be required to have samples taken for DNA testing.
3. Joint ownership of market animals entered into the Kentucky State Fair is allowable up to the point of entry, provided all requirements for joint K.U.I.P. nomination and tagging have been met. The child exhibiting the animal in the market show shall be declared at entry time.
4. Validation of market goats and wether dams (tagging with K.U.I.P. tags and collection of DNA samples) shall be completed by May 15, 2025. 4-H exhibitors shall have completed their six (6) hours of educational training prior to the time of validation. A Kentucky State Fair entry form should be submitted, along with entry fees by July 10. **Validation of market goats and wether dams is not considered entry in the State Fair.**
5. An exhibitor may enter a total of six (6) market goats; an exhibitor may only exhibit four (4) market goats. Exhibitors shall pay the entry fee of \$15.00 on each market goat (DNA fee included). Substitutions will not be allowed in the 4-H/FFA Youth Market Goat Show or the 4-H/FFA Youth Wether Dam Show.
6. The Wether Dam Show will be divided into two (2) divisions: Fitted and Slick. Fitted does are required to have a least a ½ inch of hair to be eligible. To facilitate this inspection, all market goats shall be sheared to ¼ inch of hair or less before entering the barn. All blankets, tubes, or other coverings shall be removed before inspections.

16. Each breed will name a winner in each age division. Dairy Fitting and Showmanship Contests will be held at the conclusion of the shows for both breeds that show together. Each Showmanship division will show together, if there is only one participant in that division and the judge will select a winner

in each breed (for example: Ayrshire and Guernsey Division I will show at the same time and a winner from each breed will be selected and all placed accordingly). If youth show both breeds, they will be required to choose one showmanship. Youth are welcome to participate in showmanship in more than one breed if the classes are not being shown at the same time.

17. Breed winners will receive a \$50 cash award provided by the Kentucky Purebred Dairy Cattle Association, which will be presented during the Commissioner's trophy competition. Divisional winners will receive \$25 and a rosette. Ribbons will be given to other places. A breed winner will be selected after all divisions are completed.
18. No aerosol cans will be allowed in the make up rings or show rings. ***New for 2025***

Market animals exhibiting at the Kentucky State Fair are to be exhibited as a terminal animal for harvest and meet all United States Department of Agriculture (USDA) and Food and Drug Administration (FDA) guidelines to enter the food chain. Drug screening tests will be collected as follows: market hogs (urine sample), market lambs (blood sample), market goats (blood sample), and market beef (blood sample). DNA samples (hair sample) will be collected from each of the top five market animals from each market species.
2. The carcass and hide of the Grand and Reserve Champion animal for each market animal species will be inspected and evaluated for tampering at the time of processing. Inspection and evaluation will include, but is not limited to, injection sites that do not conform to typical animal husbandry practices. The DNA samples will be tested against DNA samples that were collected by the exhibitor for market steer or heifer by March 15, 2025, and market lamb, market hog or market goat by May 15, 2025. The DNA samples collected by the exhibitor along with the samples collected at Kentucky State Fair Championship Drive and/or the market shows will be securely stored at a certified DNA laboratory. If the DNA sample does not match on the test, the exhibitors, owners, fitters, trainers, or any person who assisted the exhibitor may be disqualified, premiums will be forfeited, including loss of prizes and awards received from the show for any animal found in violation of the DNA test. The determination of the time of the injury or illness and its impact on the animal is solely based on the evaluation and diagnosis of the KSF Official Show Veterinarian. All withdrawal times shall be completed prior to the start of the show. Failure to meet the withdrawal time requirement shall disqualify an animal from exhibition.
- Only the Kentucky State Fair (KSF) Official Show Veterinarian may administer drugs to animal exhibits at the KSF.

General Principles

1. By submitting a Kentucky State Fair Entry Form or Online Entry Form, 4-H/FFA exhibitors agree to all Terms and Conditions, General Rules and Regulations and National Code of Show Ring Ethics.
2. Exhibitors who enter under one account are also responsible and held accountable to all Terms and Conditions, General Rules and Regulations and the National Code of Show Ring Ethics.

4. Animals affected by or having been exposed to any contagious disease during the 30 days preceding the State Fair will be excluded from the grounds. Therefore, sick animals shall not be exhibited because of the risk to the animal exhibit, other animal exhibits and the integrity of 4-H/FFA competitions and/or livestock shows.
5. The Kentucky State Fair Board reserves the right to decline entries from any exhibitor before the opening of the show or may remove any animal or attendant from the show without liability.
6. Exhibitors are solely responsible for their animals, including any damage or injury caused by them.

Penalties

- Any violation of the rules, regulations, General Rules and Regulations or Terms and Conditions of the Kentucky State Fair may result in forfeiture of all premiums and awards, disqualification, probation, and/or being banned from exhibiting at the Kentucky State Fair. This applies to, but is not limited to, the owner, exhibitor, fitter, trainer, or any person who assisted the exhibitor.
- The act of participating as an exhibitor in the Kentucky State Fair is a privilege and not a right. The Kentucky State Fair Board reserves the absolute right to interpret the rules and settle and determine all matters, questions, or differences in regard thereto, or otherwise arising out of, or incident to, the Kentucky State Fair. Further, the Kentucky State Fair Board has the absolute discretion to order any penalties for violation of the General Rules and Regulations, National Code of Show Ring Ethics, or specific Department Rules.
- The Kentucky State Fair Board will determine the final action on any violation.

NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the National Code of Show Ring Ethics, fairs and livestock shows may have rules and regulations that they impose on the local, county, state, provincial, and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values shall be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the Kentucky State Fair. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors shall present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals should be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer, and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event that culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state, and provincial statutes, regulations, and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations, and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question,

OPEN LIVESTOCK

its integrity is preserved, and all procedures of said collection and preservation, transfer to the laboratory, and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) that could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices is not acceptable and is prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect, and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant, whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action that contravene these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

ANGUS PHENOTYPE AND GENOTYPE SHOW (PGS) SHOW RULES

NEW FOR 2025

The objective behind the Phenotype and Genotype Show is to create another avenue for exhibitors to show their animals in another competition while providing an education opportunity to learn about the value of EPD's and economic selection indexes (\$Values) as a part of the process in selecting seedstock. Animals entered in the PGS will be evaluated by a judge under a system that requires both genotype and phenotype to be considered. The results will be a composite score where the genotype CEPD's and \$Values placing and phenotype placing will be equally weighted at fifty percent. If a tie exists on composite score, phenotype score is the tie breaker.

Angus Phenotype and Genotype Show Overview

- o To enter the PGS Show all animals shall be genomic tested (either Angus GS™ or HD50K for Angus) with a DNA Sample on file with Angus Genetics Inc (AGI).
- o Any animal with interim EPDs or EPD not enhanced with genomic results at time of check in will not be allow to show.
- o For the PGS Show, the same judge will evaluate the EPDs/\$Values and the phenotype classes, He/she will place based on his/her preferences.
- o Only females are allowed to be entered from a Junior Calf to a Senior Yearling.
- o Classes will be made after cattle are checked in at the show.
- o Heifers can show in Open show and PGS show with a separate entry fee for both
- o Premiums will be awarded like the regular open shows

All entries are required to be genomic tested prior to entry deadline in order to participate. GE-EPDs are required at the time of check-in. Animals can be tested with any of the available genomic profile platforms including Angus GS™ or HD50K for Angus.
